

RetroGrip[®] Anti Slip Inserts

GripDeck - The **one thing** you will want to get under your feet

Easy to install on existing decking

GripDeck introduces RetroGrip[®] anti slip inserts, a highly attractive, easily installed and cost effective slip resistant solution for existing grooved decking.

RetroGrip[®] anti slip inserts are supplied as pre-drilled aluminium strips, filled with resin and hard wearing aggregates, complete with stainless steel screw fixings.

See overleaf and online for more information.

RetroGrip® - another GripDeck design first

RetroGrip® anti slip inserts are designed to quickly transform slippery decked walkways, seating areas, access ramps and steps, into safe and attractive public rights of way.

Fitted with nothing more than a cordless drill and a line of adhesive, we really couldn't have made it easier to add a slip resistant finish to your existing decking.

- Aluminium strips incorporating hard wearing slip resistant aggregates
- Fast fit, minimal disruption, last for years
- Standard 1.2 m lengths
- Standard options include aluminium or grey powder coated finish

RetroGrip® comes in a choice of finishes, colours and lengths. We offer a range of profiles to suit most types of UK decking profiles. Please note: Bespoke profiles, aggregate colours, aluminium finishes and lengths are available at extra cost.
